SERVING YOU

AGH has vested heavily in its products and services to provide customer-specific solutions to satisfy EPA emissions requirements in the Rail, Marine and Stationary Power Industries. AGH works with each customer to determine the most effective emissions compliant solutions to serve their unique needs. AGH is your one-stop shop for emissions management.

PRODUCTS AND SERVICES

AGH offers diesel emission services to meet EPA emissions requirements:

- Electronic Timing Control
- Mechanical SOI Fuel Injectors
- DOC/DPF Product Line
- EPA Certification Programs
- Self-Certification Management

PROVEN SUCCESS

AGH has a proven record in helping its customers satisfy regulatory emissions requirements in the Rail and Marine Industries. AGH sources components, coordinates testing, processes cert applications and manages emissions programs designed to the customers' needs.

AGH works with clients to satisfy all emissions compliance needs from Locomotive and Marine engine certification to In-Use testing and statutory reporting.

Creative Emission Solutions

COMBINING TECHNOLOGIES

Advanced Global Holdings specializes in emissions solutions for the Rail and Marine Industries combining innovative technologies and novel approaches in meeting regulatory diesel emission requirements whether from AGH's own product line or through using customer-sourced components.
